

# Northcentral Electric Cooperative™

## LEVELIZED BILLING PROGRAM APPLICATION

Levelized Billing allows you to better fit your electric bill from Northcentral Electric Cooperative into your monthly budget by eliminating wide seasonal swings in the amount you pay each month. With Levelized Billing, your average monthly charge is recalculated each month, eliminating the need for a settlement month as required for Budget Billing.

Residential consumers who have not been delinquent on their electric bill in the past six (6) months are welcome to participate in Northcentral Electric Cooperative's Levelized Billing Program. Amounts calculated under this plan must be paid each month when they are due. If an account becomes past due, Northcentral Electric Cooperative reserves the right to collect the amount billed as well as any unpaid balance. Having twelve (12) months of active concurrent service on an account prior to application is required for eligibility in levelized billing program.

The Levelized Billing Program may be cancelled by either the consumer of Northcentral Electric Cooperative upon ten (10) days written notice, and the normal billing and payment procedures will then apply.

If you would like to participate in Northcentral Electric Cooperative's Levelized Billing Program, please complete the application below and return to our office.

For more information on this program, feel free to contact a Northcentral Electric Cooperative customer service representative in the office or by calling 800.325.8925.
