

**Take control of your electric bill  
by paying what you want, when you want.**

# PayMyWay

***The new Northcentral Electric PREPAY program***

- **No more security deposits**
- **No more monthly bill**
- **No late fees**

**Whether you are a new Northcentral Electric member or an existing member, PayMyWay lets you take control of your electric bill by paying what you want, when you want.**

## How it works:

Your account is charged for your usage daily. When your account balance falls below the minimum threshold that you set up, Northcentral Electric will notify you via text message or email. It is your responsibility to monitor the usage and balance. You can make payments when and how you choose. PayMyWay accounts that fall to a balance of \$0 will be disconnected and are subject to reconnect fees.

## New Account:

New members can get started with a PayMyWay prepay account for \$125 (\$50 membership fee + \$25 connect fee + \$50 credit in account).

## Existing Members:

Current members can switch from a traditional payment account to a PayMyWay prepay account.

- Pay IN FULL all preexisting fees and current account balance.
- Unbilled usage can be paid or converted to Debt Management. 35% of all future payments will be applied to Debt Management until paid in full.
- Existing deposits (not membership fees) will be applied toward the existing account balance or the PayMyWay account.

- All accounts must have a \$50 minimum credit balance to start.

## Payment Options:

- At the Northcentral Electric office during regular office hours Monday through Friday, 8 am to 5 pm. Payments made in the office or by calling a Northcentral customer service representative (requires a \$20 minimum payment).
- 24 hours a day via e-check, credit/debit card, kiosk locations, smart phone app, online at [www.northcentralepa.com](http://www.northcentralepa.com) or by calling 1-866-438-2642. Some restrictions apply.
